

Martin Woerner

Biographie

Martin Woerner - any questions? Barely anyone!

He's one of the few absolutely shooting stars of the rhein-main-area in 2008!

His productions for Herz Ist Trumpf Records or Paso Music were pretty successful and have been supported by all big names in the scene.

Martin Woerner was born in Hanau (Germany) in 1980. In 2002, he already launched the project "Stereofuse" together with his friend Thorsten Diegel and as a part of this project, he successfully released his first record on Salo Rec./Berlin (Casino EP) in 2002. His second release followed on Pascal Feos label Phono Elements (Headfunk) in 2005.

Besides, Martin always had his own ideas and visions of electronic music, and he hence cut his own path. He established his own label Inclusion Records which fully rounded his successful year of 2008.

The name Martin Woerner stands for euphoric and powerful dancefloor- music.

His sound spectrum ranges from deep- minimal House to impulsive Techno of which can be convinced at one of his numerous and rousing Live-acts.

You should be curious for what is going to roll down as next.
