

Steffen Nehrig

Biographie

Since the mid nineties Steffen Nehrig stands as a DJ and promoter for high-class sound in the Rhein-Main area. Being a resident in Frankfurt clubs like the "Tanzhaus West" or the "190East", Steffen set the basis to achieve the status that he has today in one of the most important clubs in Mainhattan - the Monza Club. Meanwhile, Steffen is well known for his balanced and well programmed sets behind the decks, as well as his elementary position behind the scenes of the Monza Club. Together with his associate Patric Garvin aka Null.Eins, Steffen navigated the Monza through out the last three years with over 350 events and has booked more than 1000 DJ's. Aside from being the booker and also a resident of the Monza, Steffen is present at national and international showcases in the hottest clubs of Vienna, Zurich, Madrid, Bilbao, Leeds, Berlin, Munich, as well as the yearly "Rave on Snow" festival.

Steffen's sound can be best described as a fusion between house and techhouse, never too deep, never too minimal - diversity and varied tunes are forming the fundament for long and felicitous nights behind the turntables.

Due to this idea, his first release at "Dirt Crew Recordings" reflects the consequent sequel of his sound. At first modern, lively housebeats and percussive elements merging into each other, then the melodic blowoff bursting into a complete freakout.
