### **Release info text**

This time Martin Woerner invited his long time companion and partner BASTI PIEPER (labelhead of 'Herz ist Trumpf Rec' and 'Level 6' club resident) to let off steam on his imprint Inclusion Records.

Without hesitation, Mr. Pieper grabbed his friend ATILLA and the two guys from Darmstadt/Germany delivered a real tech-house killer track named - BOB!

After the big success of 'I LOVE YOU' (Basti Pieper feat. Eddy Pirax/HITO 001) in summer 2009, Basti Pieper shows us this time in cooperation with Atilla once again how things really should be done!

On the B-side marches the reinterpretation of BOB by MARTIN WOERNER in the well known manner and so this ass moving two tracker is completed.
